

The source of  
every solution

# The perfect solution for all your water related issues

## Total solutions for water

Pleuger Water Solutions provide innovative water related solutions and services and back those with highly skilled technical support. Our expertise and customer-oriented approach has ensured that Pleuger has been working successfully for various clients for the past 50 years.

The fact that we are able to meet high demands and always honour our promises mean we have very satisfied clients. This is something we are proud of! We are keen to give you the chance to reap the benefits of our achievements, that way you will be able to have complete faith in flawless solutions and 24-hour accessibility in the event of calamities.

## 50 years of experience in a variety of sectors

We are a specialist in engineering, renovating and turn-key delivery of pumping stations for municipals. Our environment-friendly submersible motors with universal nema-connection, which we have developed ourselves, are (some of) the best in the world and have already been used in a wide range of applications. In addition we install, repair and maintain pumps for our clients.

We are setting the standard in watermakers with advanced reverse osmosis desalination units. Our watermakers has proven to produce fresh water in extreme conditions and meets the highest degree of reliability. In addition to an extensive standard range we also build custom-made skid mounted watermakers.

## A wealth of knowledge and experience at our fingertips

If you are facing a challenge relating to water, please do not hesitate to contact us. Our people are qualified, well-trained and also used to the extreme conditions of, for example, the offshore world. We combine the advantages of standard products with custom-made solutions that exceed your expectations every time. Our skilled engineers would be pleased to advise you on the options.

## Client-oriented

Our customer focus is reflected in the solutions we offer. First we determine our client's requirements. This results in solutions which are always based on guaranteed high quality. We offer the best solution while always keeping future developments in mind.

*"I almost regret the fact that, at a certain point in time, the pumping station maintenance work has to be put out to tender again because then there is risk of another contractor getting the work, despite me being completely happy with Pleuger."*

Ruud Kierkels project leader / administrator water pump stations, water and parking City of Eindhoven

## Reliable

We are a reliable service provider with a focus on our clients. Honesty and accessibility are our main priority, in addition to the solutions we offer. In order to provide the best service to our clients our repair service is available 24 hours a day, 7 days a week. We go all out to provide an optimal service to our clients.

## Expert

Our expertise consists of technical knowledge, high-quality products and a team of people who know what our clients regard as important. Thanks to our expertise we are often able to engage in long-term partnerships. We communicate clearly and we keep our commitments.
